Guilherme Duque Romance Collection

Nothing is more sensual than woman's curves. Thinking of that **Guilherme Duque** has developed its **Romance Collection**. Inspired in modern women's femininity – a woman who conquered her space in the market, and still she is delicate and romantic –, the brand presents its jewelry pieces shaped in concave and convex forms reminding a woman body.

White, yellow and pink gold – the most rare type – bring movement to rings, earrings, necklaces and pendants, which gain the colours and brightness from the gemstones: ruby, blue sapphire and diamond. These jewels simply turn a woman absolutely seductive and fabulous at any time and anywhere.

Once again, repeating the successfull partnership, **Fause Hatén** has designed a collection's line for the seventh time. The hit of "Fause Hatén by Guilherme Duque" is the **Sagrado Coração de Maria** which means Virgin Mary's Sacred Heart.

The main pieces of Guilherme Duque's Collection are the hoop earrings in unique ways.
